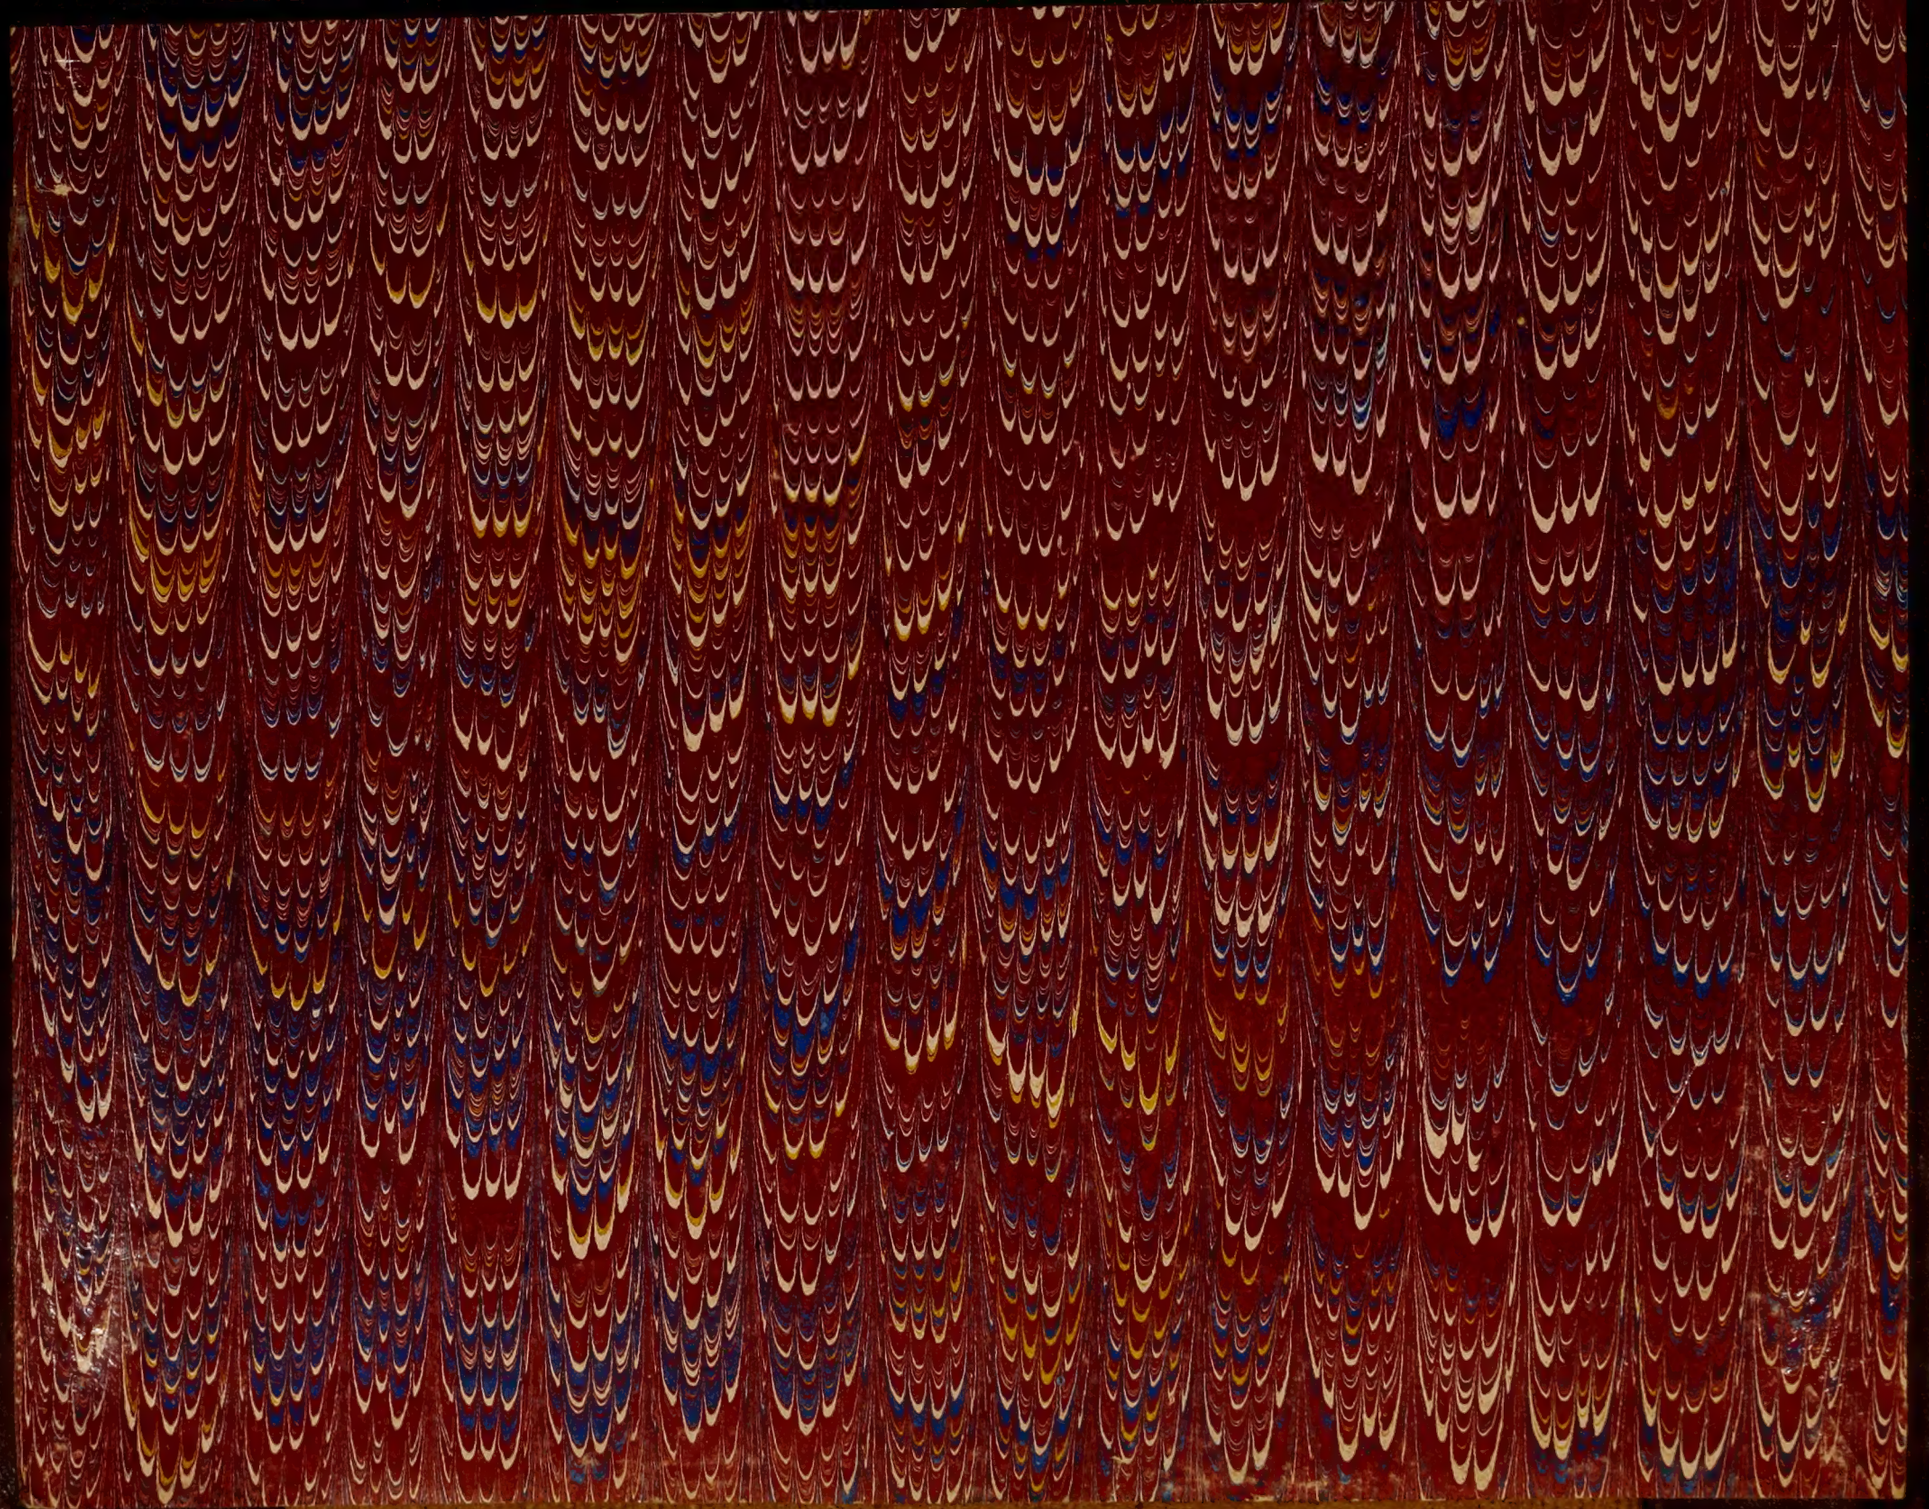
40/2 Faculty ~~Senate~~ Meetings
Sept. 11, 1895- June 14, 1902



At a meeting of the Faculty of the Massachusetts Agricultural College held April 6th, 1895, it was voted:—

I. That increased responsibility for attendance of students upon class exercises be assumed by each professor.

II. That this fact be constantly insisted upon, that all excuses are from attendance and not from assigned work, and that frequent absences, even though excused, may affect the class rank of the student. Absences from laboratory or from field work will be regarded in determining such class rank.

III. That excuses from church or chapel shall be granted or disallowed by the President: all others, by the instructor in charge.

IV. That excuses for absence shall be presented to the instructor before such absence. If this should be impossible, then the student shall present his excuse at the earliest possible time thereafter.

V. That all excused absences be reported at the end of the term to the registrar; and each unexcused absence be reported to the President within twenty-four hours from the time the instructor declares it unexcused.

VI. That we commend to the careful consideration of the Faculty the fact that the regular attendance of Faculty and students upon college duty is indispensable to the successful working of the system now proposed and to the promotion of the highest interests of the college.

VII. That a copy of the recommendations now abopted be furnished to each member of the Faculty.

NATURAL HISTORY LECTURE COURSE.

FIRST LECTURE BY LIEUT. W. M. WRIGHT, SECOND UNITED STATES INFANTRY.

A very able and interesting lecture was given last night by Lieut. W. M. Wright before the Natural History Society. A large and attentive audience was present. The lecture was on the "Strategic Relation between the United States and England." The Lieutenant first spoke of the relation of the two countries in general. He then went on to say that so long

they are conducted for the welfare of man as man or aim at the glory of the invader. You must be sure that a government in protecting the rights of her people can do good work also to man in general. If you find that the motive is the birth of Ambition then give your verdict and think how to stop the rushing flood which one day may sweep your country too!

THE '98 INDEX.

It is now over a month since the '98 *Index* was placed on sale. During that time the twenty-six classes that have been graduated from Aggie have bought thirty-nine books, or an average of three books to every two classes. The Editors made a special effort to have the book published on time and this is their reward—eight books sold to each one hundred graduates.

The '98 *Index* contains the latest correct list of the alumni—in fact it is the only complete list which is available to M. A. C. graduates, but in view of the fact that the receipts for the sale of the books do not repay the money and labor expended in obtaining such a list, it seems advisable that future boards shall not attempt to sell their publication to the alumni.

All graduates have received an announcement that the '98 *Index* is on sale. Possibly this fact has slipped their minds; if so it is hoped that this appeal will again remind them that if the publication is to be a success more books must be sold.

There are also many undergraduates who have not yet obtained an *Index*. Let every one buy at least one copy and in future years he will have something to remind him of his life at Aggie.

CONSTITUTION AND BY-LAWS OF THE MASSACHUSETTS AGRICULTURAL COLLEGE ADVISORY BOARD.

SECTION 2.

Article 1. The Board shall consist of two members of the faculty of the Massachusetts Agricultural College—one of whom shall be the presiding officer, and the other the secre-

He said that he had himself opposed this action and had accounted satisfactorily to the Professor for his own absence. After the withdrawal of Mr Merrill Prof Brooks gave his statement of the case, and said that so far as he was concerned he did not wish to push the matter further, being willing to accept the apology as rendered.

It was then voted that so far as the matter related

A petition from Mr Hubbard himself was read asking to be readmitted to college, confessing his fault, showing contrition therefore and promising to never be absent without a written excuse from his mother or sister and to do his best to discharge all college duties.

It was voted that Leslie S. Thompson, who has absented himself without excuse from

dried, be suspended until he shall satisfy the President and Commandant that he will attend to duty.

The Committee on Instruction reported a "cut system" which was discussed and by vote amended and as amended adopted. It is as follows:-

Rules for absences.

There is given herewith to every student in the College the privilege of absenting himself from a prescribed number of class exercises which he has been required to attend hitherto.

At the beginning of the College term every instructor shall announce to his class the number of exercises

es from which its members are allowed to be absent during the term. This number shall be ten per cent. of the entire number of class exercises, exclusive of laboratory exercises; attendance at all of these may be required.

Whenever for any cause, except a request of the athletic board, a student "cuts over" the number of absences allowed, he will be conditioned in the subject which he has "cut," and will be required to do, or present, extra work at the time when conditions in term work are made up; the amount and quality of

this work will be left to the discretion of the instructor. In the record of absences two tardy marks shall be considered as equivalent to one absence.

If, after the first "cut over, a student be absent he may offer to his instructor an excuse therefor, which excuse must be in writing and be signed by the student. The absence and the excuse, if offered, shall be reported to the instructors of the class to which the student belongs. These instructors shall meet at stated hour once a month. They shall be organized by

the choice of a president and secretary who shall keep a careful record of all votes passed at these meetings. If the excuse for absence reported to the instructors be accepted by a unanimous vote then secretary shall report the same to the student and no further action will be required. If it be not accepted, or if the student fail to present an excuse, the case shall be reported to the faculty.

It shall be the duty of the athletic board to post, at least one day before absence is desired the lists

of those who are to be absent at the request of the board, together with the day or days, and hours of such absence. The students thus posted will be excused, and the privilege of absence shall not be granted to a student whose name is not thus posted.

The privilege of absence hereby granted shall not extend to examinations.

All rules pertaining to absences or excuses from class exercises heretofore adopted by the faculty are hereby rescinded.

It was voted that the members of the faculty shall announce to their

classes that the system will go into effect on Monday next and also tell them the number of cuts allowed.
